

# PAQUA®

Keep your goods dry wherever you are

## The Professional Choice

A dynamic range of waterproof packs and accessories for professional and recreational use. Rugged, comfortable and submersible, PAQUA products keep valuables and electronic equipment safe and dry. Take it with you wherever you go.

**PAQUA – what we do:**

We are an Australian-based company dedicated to the design, testing and distribution of waterproof packs and accessories.

Quality, innovation, comfort and value are paramount in all our designs.

Excellence in the design of waterproof packs for professional use, extreme sports and recreation is what we strive for.

- Keep valuables and electronic equipment safe and dry – in, on and out of the water
- A strong foundation in the Professional Market – Search & Rescue, Lifeguard & extreme sports industries
- Designed by active sports people with members of elite Search & Rescue teams
- Professional products adapted for recreational use
- Accredited supplier to Surf Lifesaving Australia (SLSA) and APOLA (Australian Professional Ocean Lifeguard Association)
- Preferred supplier to a myriad of Search & Rescue organisations throughout the world

**Our philosophy is simple:**

To make the most rugged, comfortable, waterproof and submersible packs that will enhance operational performance.

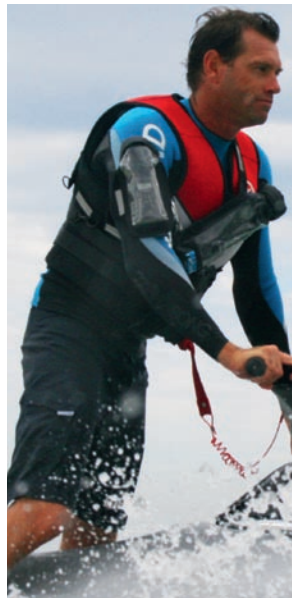

**How PAQUA works:**

- Dependable ‘tri-fold’ sealing method, incorporating our unique ‘air-lock’ (patent pending) system
- Highly-evolved body-attachment methods
- Military-specification materials and clips
- High UV and salt-water resistance

**PAQUA – up to the task:**

- All designs are comprehensively ‘rough-tested’ in the field prior to production
- Diverse and extreme testing platforms
- World-wide replacement warranty

Customer feed-back is welcomed for our on-going product development – please feel free to check out [www.paqua.com.au](http://www.paqua.com.au) to see how we may be able to assist with your individual requirements or specifications.
